INDUSTRIAL VISIT REPORT

Date : 16.03.2024

Sub. code : 22 BCC 41V

Venue : Management Block

Beneficiaries : 43

A complete report on industrial visit organized by our department, for the students of II-B.ComCA in order to get the practical knowledge about "Advanced Technology used in Data Analysis and software Development" carried out by Elysium Group of Companies, Madurai.

Purpose:

Industrial visits are an integral part of Curriculum. The purpose of industrial visits for students is to provide technical knowledge with the technological development in the industry and to understand the gap between theoretical and practical knowledge that could be passed in future.

This experience can help students to provide information regarding the functioning of various industries and associated problems and limitations.

Overall, this visit aims to train the students to adapt to changing scenarios of technology. After the visit students can identify their efficiency and performance which is important for their career, improving work efficiency and confidence.

Details of Journey

Our department had organized an industrial visit on 16th March 2024 to Elysium Group of Companies located in Madurai, for the students of II-B.ComCA. The visit was organized by Dr. R.Vijayalakshmi Head of the Department & Mrs. A. Pelsita Mary

Assistant Professor was the Coordinator Faculty for the industrial visit. We started travelling from the college campus at 08:30 am by bus. Totally 43 students along with 3 faculties were there in the journey.

Profile

Elysium Group of Companies is an IT firm offering web design and development, engineering research, digital marketing, and other services. Elysium Technologies is one of the top data science consulting companies in India. As a multidisciplinary team of data science consultants, we mainly focus on providing practical business value with data science skills.

The significant advantage of working with Elysium Technologies is our commercially focused data science approach. Our in-depth business experience combined with our broad range of technical skills and the domain knowledge allows us to help you focus on applying data science to the most important commercial opportunities.

Objectives of the Visit

The industrial visit to EGC had the following objectives:

- To familiarize students with the real-world applications of computer science and its various domains.
- To provide insights into the day-to-day operations and work environment of an IT company.
- To understand the role of technology in solving complex business challenges.
- To gain knowledge about the latest trends and technologies in the IT industry.
- To interact with industry professionals and learn from their experiences.

Activities and Observations

1. Welcome and Introduction:

The visit began with a warm welcome by the EGC HR team. The students were introduced to the company's history, vision, and its contributions to the IT industry.

2. Presentations and Discussions:

EGC representatives conducted informative presentations on various aspects of the company's operations, including software development methodologies, project management techniques, quality assurance processes, and cybersecurity measures. The students had the opportunity to ask questions and engage in discussions to deepen their understandings.

3. Q&A Session:

A dedicated question and answer session was conducted, allowing the students to clarify their doubts and seek advice on various aspects of a career in several industries.

Conclusion:

From this visit, we got the information and practical knowledge about different departments/sectors in the IT Industry. Students got the idea of what is methodology and it's working. About 43 students of 4th Semester Commerce with Computer Applications and faculties benefited from this visit as they got a chance to discuss with the HR team. Students learned the atmosphere and working culture which is shows the success of this visit.
