Herbal medicines are used to cure diseases since a great many year back in light of its simple accessibility, social worthiness and less side effect. We have so many wonderful natural remedies all around for any burns, cut, cold, fever, sneezes and more. It is very important to have medicinal plants around us and we have to aware of them.

As a part of the curriculum, the students are required to aware of the Locally Available Herbal Plants and Vegetables. So we have taken our II BCA students to the Herbal Garden which was cultivated by the Department of Biochemistry. Mrs.S.Savariammal, Lab Assistant, Department of Biochemistry, explained about the medicinal herbal plants which are available in the garden and it uses. Students are also got an idea about what are all the locally available herbal plants.
