DEPARTMENT OF PHYSICS

ENVIRONMENTAL SCIENCE TOUR REPORT

One day environmental science(EVS) trip was organized by Department of physics to visit a Trichy on 27.05.2022. The tour comprised students of I B.Sc physics accompanied by faculty members Dr.S.J.Helen, Ms.B.Sankavi, Mrs.M.Ramya & Mrs.S.Sasikala Dept of physics. All the students were directed to gather at college hostel gate at 6.00am the principal of the college Rev.Sr.Dr.C.Jothimary and vice principal Rev.Sr.Dr.Sabinmary wished all the students for the best safe journey.

We started on journey at 6.00 am with a college bus and reached at 9.30 am at the location. All the students along with faculty members were to visited the

First location Trichy Malaikottai:

Trichy Malaikottai, aka Trichy Rock Fort. On looking at the structure of this Trichy Malaikottai, the first thing that will strike the royalty of this amazing place begins right from the wide stares which are built in a different way than in any other temple. We will be able to locate the scenic beauty of the surrounding place while you climb. If you are wondering about the distance of temple from the ground, then it is 83 meters (272 feet) high on the ancient rock which is over one billion years old. So students were really exciting and enjoying. That's why we choose that place to visit for this trip.

Second Location Mukkombu:

The Mukkombu Dam is a regulator which splits water coming from Mettur into Kollidam and Cauvery rivers. Thus, it got the name 'Mukkombu' which means 'three branches' in Tamil. It was built on an intention by Sir Arthur Cotton to provide an endless supply of water for the villages around the place to utilize it for irrigation purposes. A Perfect picnic spot Apart from the waters, scenery and other things, there are lots of trees, benches to sit on and shady spaces around the dam students also sitting in circles, and enjoying their lunch.

Overall it was a great experience. It was a new interesting experience for all of us. We took group photos, and we all had safe & enjoyable journey with a lots of information.
