SOLAR LIGHT

As an environmental consciousness and sustainability the College has taken necessary steps by upholding Solar Lights. Keeping in mind the advantages of solar energy like reduction in electricity bill, low maintenance cost and decrease in greenhouse gas emissions, the College has installed the solar energy system. Apart from this system the College has taken effort to introduce the "Earth Hour". This is an event held weekly (every Thursday) one hour power off from 2.30 p.m to 3.30 p.m. encouraging students, teaching and non-teaching staff to save the Earth and Energy.

LED BULBS

"Electricity can transform people's lives, not just economically but also socially"

LED Bulbs are one of the latest inventions for reducing the negative effects of conventional bulbs to the environment. There are 100 LED Bulbs in the College, through which we are able to save electricity.
