

Environmental Promotion Activities beyond the Campus

Event: Tree Plantation

Trees are the foremost source for producing the oxygen in environment, they helps to reduce the level of CO₂. As we all know that the whole world is facing the problem of Global Warming and to recover from such problems, planting the trees is became one of the most important aspects today. So the NSS serving units and the students of Idhaya took part in planting tree saplings beyond the campus. Students also came to know that through planting trees we can save our Nature and Earth.

Tree Plantation in Vellikatti
